## PROJECTS AND TEAMWORK SKILLS

I thrive in dynamic environments and enjoy collaborating with driven individuals. Here are some of my favorite projects:

### 2024 | M-CODELAB Green Planet | Hackathon First Place

- Collaborated with a team of four to develop a software solution advising organizations on reducing environmental impact through carbon offset projects.
- Implemented a trading feature that enabled users to trade M-coins, a semi-stable currency linked to eco-values and trading activities of participating companies.
- Tech Stack: MERN (**MongoDB**, **Express.js**, **React**, **Node.js**)

### 2022 - 2023 | Project GloPy - AIMv2 | School Company

- Developed an innovative glove for precise hand tracking and personalized touch input, applicable in VR, rehabilitation, manufacturing, and sports.
- Contributed to the creation of a demo product, website, social media presence, and marketing strategy for the project.
- Achievements:**
  - First place and funding at TeenHack2022 Ruse.
  - Secured funding from the PARA incubator.
  - Finalist in **JaBulgaria** School Companies program, regional competition in Varna.
